

# CERTIFIED

# Brass EDM Wire

### Consistent Tensile Strength:

Heat treated for stable tensile strength to avoid wire breakage

### Extreme Straightness:

Free from twisting or deformation to assure consistent auto-threading

### Packing:

Anti-Rust paper and plastic film to avoid oxidation and corrosion

*Material Composition:* CU/ZN = 65%/35%

*Elongation:* Hard 3%

*Conductivity:* 24%

*Tolerance:* +/- 0.001mm - 0.002mm

*Tensile Strength:* 130,000psi - 137,000psi

*Available Diameters:* .008, .010, .012
